

Adhi Aulya Fahreza

WordPress Development | Theme Development | REST API Integration
Jakarta, Indonesia | +62895327821590 | adhifakhrezza@gmail.com

PROFESSIONAL SUMMARY

Senior WordPress Developer with 7 years of experience building and managing business websites, WooCommerce stores, and REST API integrations. Skilled in PHP, MySQL, JavaScript, and multiple page builders, with practical experience in payment gateways, performance tuning, and SEO tools. Built websites for clients in Japan, Norway, Thailand, South Korea, Indonesia, and the Netherlands, including an LMS for 3,000 users.

WORK EXPERIENCE

Orbent Ltd, Hong Kong, Website Developer, (11/2023)-(09/2026)

- Developed WordPress websites for clients in Japan, Norway, Thailand, South Korea, and the Netherlands, from brief to launch.
- Built page layouts with Gutenberg and theme customization, keeping designs responsive on desktop and mobile.
- Configured Yoast SEO, metadata, and site structure so client sites were ready for search indexing at launch.
- Integrated payment gateways and marketing tools with WooCommerce stores through REST APIs, and built a headless WordPress setup that serves content to a separate front end.
- Optimized page speed with caching, database tuning, and image optimization, and hardened security with regular updates and backups.
- Deployed sites through Git and CI/CD pipelines on AWS and Azure, testing on staging before each launch.

PT Kupula Jaya, Aceh, Indonesia, Web Manager, (02/2019)-(08/2023)

- Managed the company's WordPress property website built with Elementor and Crocoblock, including listings and content.
 - Built property listing pages with custom post types, search filters, and enquiry forms for visitors to find and contact sales.
 - Customized the theme with PHP, HTML5, CSS3, JavaScript, and jQuery to match the brand on mobile.
 - Tuned load times with caching, image compression, and query cleanup, and kept the site updated.
 - Maintained code in Git and handled deployment to production hosting.
-
